To develop appropriate programs to address the housing issues identified in the 2024-2032 Housing Element (6<sup>th</sup> Cycle), Madera County has reviewed the housing programs adopted in the 2015-2023 Housing Element (5<sup>th</sup> Cycle) and evaluated the effectiveness of these programs in delivering housing services and assistance. Table E-1 summarizes the County's progress toward the previous Regional Housing Needs Allocation (RHNA) and Table E-2 provides a detailed program level assessment of housing accomplishments over the 5<sup>th</sup> Cycle planning period. Programs that are routine staff functions with no specific actions or no direct County involvement are not continued as housing programs in the 6<sup>th</sup> Cycle Housing Element.

### E.1 Effectiveness in Addressing Special Needs

Special needs communities are demographic or occupational groups that call for specific program responses to address unique housing needs. State law specifically requires analysis of the special housing needs of people who are elderly or disabled (including developmental disabilities), female-headed households, large families, farmworkers, and people experiencing homelessness. These special-needs groups often spend a disproportionate amount of their income to secure safe and decent housing and are sometimes subject to discrimination based on their specific needs or circumstances.

The County's 5<sup>th</sup> Cycle Housing Element addressed special needs populations through actions under Program 2.3, which addresses the identified special housing needs of the community, including seniors, low-income families, and unhoused residents; Programs 4.1 and 4.2, which address housing for farmworkers; and Program 4.3, which directs the County to apply for emergency housing funding. During the 5<sup>th</sup> Cycle Housing Element, the County took the following actions to address special needs housing:

- Madera County has partnered with local housing developers, the Madera Housing Authority, and other housing and support service partners to increase the number of low-income housing units as well as provide the support services needed so people stay housed. The Madera County partnership has resulted in several housing developments including the opening of Sugar Pine Village and the Downtown Madera Veterans and Family Housing developments. Berry Development will be building a multi-family development that will be rented below market rates to support low-income families.
- Sugar Pine Village in the city of Madera opened in December 2021 with 52 units of affordable housing, including 16 for people experiencing homelessness. The \$25 million project was a partnership between Self-Help Enterprises, Madera County, the State, and private investors, among others.
- The Fresno-Madera County Continuum of Care received \$6.5 million of annual funding to address homelessness.
- The County of Madera has been in the process of collaborating with the Madera Rescue Mission to expand services offered by the Mission to both increase capacity and to implement the Housing First Model of care by installing self-contained housing units on the Madera Rescue Mission property. The goal is to install six one-bedroom units and one two-bedroom unit. The County is applying for funds to hire a Housing Case Worker who will provide triage services and

then assist individuals and families who reside in the units to secure a permanent housing solution. The funding will also pay for Homeless Outreach Services to help inform and encourage homeless individuals to seek assistance and to help find housing solutions.

- The County continued its partnership with the Community Action Partnership of Madera County (CAPMC), which operates the Shunammite Place Permanent Supportive Housing Program. CAPMC receives funding from Madera County via HUD for homelessness and behavioral health services. The Shunammite Place Permanent Supportive Housing Program provides permanent supportive housing for chronically homeless women with disabilities. The Shunammite Place helps women with issues of mental and physical health by encouraging structure, improvement, dedication, and goals achievement.
- The County participated in Housing for the Harvest, a program announced by Governor Gavin Newsom in July 2020 to provide temporary hotel housing options for farm and food processing employees to self-isolate if they are COVID-19 positive and do not require hospitalization or have been exposed and cannot properly self-isolate at home.

The County has identified housing needs for special needs populations and understands that although several programs and coordinated efforts assisted special needs populations, there is still a gap in services. For instance, eastern Madera County lacks any type of emergency shelter. A unique challenge during the 5<sup>th</sup> Cycle were the COVID-19 pandemic regulations, which began in spring 2020 and reduced the funding and physical capacity of organizations like the Madera Rescue Mission.

## E.2 Quantified Objectives

Table E1 summarizes the County’s progress toward meeting the 5<sup>th</sup> Cycle Housing Element RHNA and objectives to rehabilitate and conserve/preserve existing housing stock. Madera County did not reach its 5<sup>th</sup> Cycle RHNA goals for housing development in any household income category.

**Table E-1 Quantified Housing Objective and Achieved Accomplishments**

	New Construction		Rehabilitation		Preservation (At-Risk Units)		Conservation	
	RHNA Goal	Actual	Objectives	Actual	Objectives <sup>1</sup>	Actual	Objectives	Actual
